<https://github.com/LyuboDias>

Simple project to display my **Portfolio** of work.

It was built by me using **Rails**
<https://www.db-uk.net/>

I'm a Junior Full Stack Web Developer,

Completed **Le Wagon**, #1 coding Bootcamp in the world.

Been Freelancing and learning to code since the beginning of 2020.

Coding alone is hard and progress is slow, working with a team is a two-way relationship where I could provide value to you, while you invest in me!

I strive to solve solutions by attacking the problem at its core. I enjoy a nice coding challenge because I am always learning new things.

Tools

Front End

- JavaScript
- HTML
- CSS
- Sass
- Bootstrap
- React
- Redux

Back End

- Ruby on Rails
- Heroku
- Git
- SQL/Postgress
