https://github.com/LyuboDias

Simple project to display my **Portfolio** of work. It was built by me using Rails
https://www.db-uk.net/

Im a Junior Full Stack Web Developer,
Completed Le Wagon, #1 coding Bootcamp in the world.
Been Freelancing and learning to code since beginning of 2020.

Coding alone is hard and progress is slow. working with a team is a two way relationship where I can provide value to you , while you invest in me!
I strive to solve solutions by attacking the problem at its core. I enjoy a nice coding challenge because I am always learning new things.
And I also love the ability to breeze through problems which I've already found prior solutions to.

SKILLS

Front End
- JavaScript
- HTML
- CSS
- Sass
- Bootstrap
- React
- Redux

Back End
- Ruby on Rails
- Heroku
- Git
- SQL/Postgress
- NodeJS
